PROFILE

Results-driven Purchase Engineer with demonstrated expertise in strategic procurement, supplier negotiation, and process optimization across both direct and indirect spend categories. Proven ability to deliver substantial cost savings and elevate supply chain efficiency through data-driven insights and robust cross-functional collaboration. Seeking a challenging and dynamic procurement leadership role within the automobile industry to drive transformational sourcing strategies, optimize vendor performance, and accelerate business growth.

WORK EXPERIENCE

Tufropes India Pvt Ltd |Purchase Engineer 06/2025 - PRESENT

- Streamlined ARC vendor base, eliminating redundancies and driving significant cost efficiencies in sourcing operations.
- Spearheaded procurement of CAPEX, OPEX, and IT assets, securing timely, cost-effective acquisitions aligned with strategic objectives.
- Executed high-impact e-auctions for asset replacement and scrap disposal, maximizing transparency and achieving optimal value recovery.
- Analyzed procurement data to identify and rectify material coding inconsistencies, enhancing data accuracy and standardizing procurement processes.

Caparo Engineering India Ltd. 12/2024- 03/2025

- Created and managed Purchase Orders (POs) for IT, assets, tools, and spares, ensuring accurate and timely procurement of essential materials and equipment for ongoing projects.
- Coordinated with vendors to ensure the release of outstanding payments, maintaining a smooth payment cycle and fostering strong relationships to ensure continued vendor support.
- Assisted in audit preparation, supporting internal teams in addressing audit points and ensuring compliance with procurement policies and procedures.
- Maintained positive vendor relationships through effective communication and collaboration, driving on-time delivery, resolving issues, and ensuring optimal service levels.

Force Motors Ltd 07/2023 - 10/2024

Purchase Engineer | GET

- Implemented procurement strategies and managed end-to-end sourcing for sheet metal components, achieving a 15% cost reduction and enhancing supplier performance through SAP ERP.
- Led planning, MRP, and production scheduling, ensuring accurate demand forecasting, optimal inventory levels, and timely procurement to support uninterrupted manufacturing operations.
- Analyzed inventory and supply chain data, reducing overstocking, improving material turnover, and achieving a 20% reduction in lead times through data-driven procurement decisions.
- Coordinated Engineering Change Notice (ECN) implementations and ensured compliance with legal and internal policies, aligning procurement and production teams to minimize operational disruptions.
